

REAR DIFFUSER WITH CLIPS

INSTALLATION MANUAL

Disclaimer

These are fitting guidelines only and we highly recommend installations are undertaken by a professional. Maxton Design Ltd. can't be held liable for any damages or liabilities that may arise from following any guidelines given by the Company.

Vehicle modifications caused by the usage, abuse, or incorrect installation of Maxton Design Ltd. products might result in significant vehicle malfunction. Vehicle damage, major bodily injury, disability, and/or death are among the dangers. Any changes you make to your or someone else's car using Maxton Design Ltd. goods are your responsibility. Maxton Design Ltd. is not responsible for any changes made to automobiles as a result of the usage or abuse of its product and will not be held accountable. If you have little to no expertise installing any of the products sold via maxtondesign.co.uk website, professional installation is highly suggested.

Products are sold as-is, and we are not responsible for any damages or injuries sustained during installation or subsequent use of the vehicle. Because proper installation is crucial to our product's performance and longevity, please go through the documentation carefully and test your installation before resuming driving.

1 STEP 1

Remove the original diffuser.

2 STEP 2

Use the original bumper mounting connections to mount the Maxton Design diffuser.

3 STEP 3.1 (optional with step 3.2 below)

Fix the Maxton Design diffuser with the screws so that it does not fall out of the catches.

3 STEP 3.2 (optional with step 3.1 above)

Using a heat gun, heat the catches and bend at an angle of 90° - be careful not to overheat the diffuser or bumper.

4 STEP 4

Cut the original glare clips.

5 STEP 5

Using screws fix the reflective lights into the diffuser.

Please note these instructions are for guidance only. It is your responsibility to ensure the installation is undertaken in a safe and correct way. We strongly recommend you leave the installation to a qualified professional.

Thank you for choosing Maxton Design!

We hope our product will meet your expectations.
